“THE ORIGINAL”

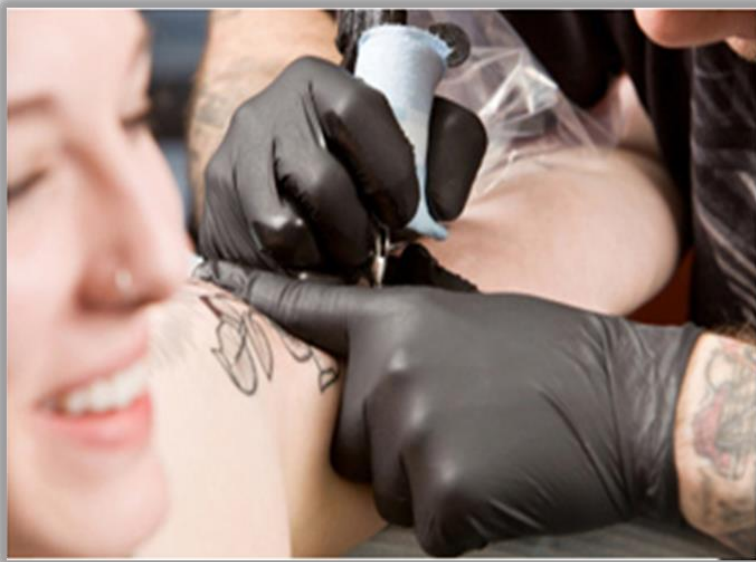

VIPER GLOVE LINE

VIPERs, the original exam glove in black, equip you with an incredible line of defense against blood, bodily fluids, and possible blood-borne pathogens, as well as a striking, visually dynamic look. They provide exceptional resistance to puncture, tearing, and contamination, and are specially designed to allow extra manual dexterity and sensitivity.

The nitrile VIPER glove line in sleek black is powder-free! They are extremely strong and durable for long term use then most leading competitor's thinner black gloves!

The government's minimum requirement in glove thickness is .08 mm/4 mil. The Black Viper Latex is .16 mm / 8 MIL but feels like an .08!

BLACK IS THE MOST PREFERRED COLOR IN THE TATTOOING INDUSTRY
