

Introducing:
POSI-Prene
Neoprene Medical Examination Glove

Posi-Prene is made of polychloroprene, a rubber better known as neoprene, which is used in wet suits and other latex-free applications.

Features:

- Exceptionally elastic and stretchy compared to other non-latex gloves
- Easy to put on and remove
- Forms to the hand for a perfect fit
- Extremely comfortable
- Textured surface for enhanced grip
- Excellent rip and tear factor rating
- Better tactile sensitivity than leading non-latex gloves
